

The New Jersey Do Not Call list must be maintained. It has been very successful in protecting the quality of life in my home. We used to get calls from 8am to 9pm weekdays and weekends, and the people were pushy and nasty and even abusive. Not having this upset in my home has been a blessing. My father-in-law who is 85 is not on the DNC list, and he is continually hit on and taken advantage of by unethical companies who prey on the elderly. And once you get on their lists, they spread your name around so that you doubly bombarded by others who know they have found a mark. Please do not repeal this law. Thank you.
